

Empowering Broadcast Innovation

UHD IP-ST2110 Television Studio for the Creative Centre RTVS Bratislava

We are thrilled to announce the successful completion of our latest project in collaboration with **RTVS Bratislava, Slovakia**. Under the banner of "Television Studio for the Creative Centre RTVS" STRYME has once again demonstrated its expertise in delivering cutting-edge solutions tailored to the unique needs of our clients.

This project marks a significant milestone for both STRYME and RTVS, showcasing the seamless integration of state-of-the-art technology to enhance the production capabilities of one of Slovakia's leading broadcasters. Our flagship video server, GENESIX, played a pivotal role in the project, leveraging **UHD IP-ST2110** technology to deliver unparalleled performance and reliability.

We extend our heartfelt gratitude to the RTVS Production Team for their collaboration and trust in our capabilities. As the technical aspect of the project draws to a close, we eagerly anticipate witnessing the artistic endeavors that will flourish within the newly equipped studio.

Acknowledgments and Collaborations

None of our achievements would be possible without the steadfast support and collaboration of our esteemed partners. We would like to extend our sincere thanks to Elvia Pro Slovakia, our valued Slovakian partner company, for their invaluable contributions to the success of this project. Special recognition goes to **Milan Kičín, CEO of Elvia Pro**, for his exemplary leadership and dedication.

Looking Ahead

As we celebrate the successful completion of the RTVS project, we remain committed to driving innovation and excellence in the realm of video solutions. With a firm focus on customer satisfaction and technological advancement, STRYME is poised to continue delivering transformative solutions that empower broadcasters to realize their creative vision.
