

SO SIMPLE, SO EFFICIENT SO STRYME

TUBICON LIVE

Reach out to your audience through our brand-new Android smartphone app called **TUBICON LIVE** for instantaneous going live on air or on social media.

All it needs is a windows application producer controlling up to 4 cell phone cams (channels) in real time. Additionally, a chatting and instruction function is given. The IP based recordings are transferred into the cloud and shared immediately live on demand. No need for professional hardware nor requirement of special skills.

4x4K in a 2U GENESIX VideoServer

Flexible 4x4K UHD in a 2U GENESIX VideoServer supporting SONY XAVC codec.

Rent a GENESIX

A simple & easy way of renting GENESIX, a high-tech all-in-one multi-channel 2U video server, for any professional productions. Including: applications, support, configuration and installation.
